

Thank you for taking the time to read my comments. K-LOVE is very valuable to our family. We have 2 teen-agers growing up in a society that expects them to grow up way to fast. K-LOVE is the station of choice for our children. Everytime we listen to K-LOVE, which is daily, my family is encouraged, uplifted and filled with a joy that comes from hearing the positive message K-LOVE has committed itself to deliver.

The positive message K-LOVE delivers impacts us and causes us to spread the same positive message to others in our community (school, work, and play). Please do not make it more challenging for K-LOVE to deliver it's message. As a family is touched in a positive way, so the community is touched. We need more stations like K-LOVE. They truly are a beacon of hope. Thank you!!!
